E. P. Puckett, Fayette, Mo.
J. H. Reynolds, Conway, Ark.
H. N. Snyder, Spartanburg, S. C.

OFFICERS OF THE BOARD

President.—Bishop E. D. Mouzon, Charlotte, N. C.
Vice President.—Bishop James Cannon, Jr., Washington, D. C.
Recording Secretary.—Dr. C. C. Grimes, Memphis, Tenn.
General Secretary.—Dr. H. H. Sherman, Nashville, Tenn.
Treasurer.—Mr. W. E. Hogan, Nashville, Tenn.

STAFF OFFICERS

General Secretary.—Dr. H. H. Sherman, Nashville, Tenn.
Religious Education Secretary.—Dr. J. M. Culbreth, Nashville, Tenn.
Promotion and Publicity Secretary.—Dr. R. H. Ruff.
Treasurer, Business Manager, and Assistant Secretary.—Mr. W. E. Hogan, Nashville, Tenn.
Assistant College Visitor.—Rev. Nat G. Long, Nashville, Tenn.

COMMITTEES OF THE BOARD

Executive.—E. D. Mouzon, J. H. Reynolds, G. W. Read, C. C. Grimes, H. H. Sherman.
Nomination.—E. D. Mouzon, H. H. Sherman, C. H. Booth, J. L. Clark, R. H. Wynn.
Continuation Committee of the Christian Education Movement.—E. D. Mouzon, A. J. Lamar, J. M. Culbreth, G. T. Rowe, H. H. Sherman, W. E. Hogan.
Finance.—L. G. Waldrop, J. H. Parkes, H. H. Sherman, C. C. Grimes, J. R. Countiss.
Appropriations.—E. D. Mouzon, J. H. Reynolds, W. F. Quillian, H. H. Sherman, J. L. Clark, Ivan Lee Holt, E. E. White.
Religious Education.—James Cannon, Jr., R. G. Mood, Carl Hollis, E. P. Puckett, R. E. Blackwell, H. N. Snyder, R. J. Yoak.

Annual Report of the General Secretary for the Year Ending March 31, 1929

FOR the first time in eighteen years the General Board of Education meets in regular annual session without the presence and guiding hand of Dr. Stonewall Anderson. Due tribute has been paid to him, and appropriate resolutions adopted and spread upon the minutes of the Board at the called meeting held at Lake Junaluska, July 17, 1928, but as his successor I want to introduce my first report with an additional word of tender love for his memory and sincere gratitude for his abundant labors and wise administration. The highest tribute that can be paid to any man by his successor is to take up the work where he laid it down and carry out the plans and policies he had projected, adapting them to new conditions as they arise. This I have sought to do. Dr. Anderson's annual report a year ago was an unusually strong and important document. We shall do well to keep before us his recommendations.

During the year the work of the Board in its several departments has been carried on about as usual, the responsibilities have been met and the various interests cared for. As we have been short one member of the staff, additional duties have fallen upon the other members, especially the General Secretary, who has carried the regular work of his office and also that of the Department of Promotion and Finance. Acknowledgment is

gladly and cheerfully made of the fine spirit of coöperation and good team work of the entire staff and the assistants.

The activities of the Board include the following items: Promoting the Pastors' Schools, meeting with their Boards of Managers, keeping records of credits and issuing diplomas; caring for Methodist students in State schools through student pastors and courses in Bible and Religious Education; visiting the Church and State schools and carrying to the students through public addresses and personal interviews messages of vital importance to them in their life work and plans; co-operating with the Church schools in establishing and strengthening Departments of Religious Education; conducting the Teacher's Bureau; attending the Annual Conferences and representing our cause before the Board of Education and the Conference; disbursing and administering more than a half million dollars of current receipts and invested funds, including the lending judiciously of about \$20,000 to 160 or more students in some 40 different institutions; collecting amounts due on previous loans; conducting educational surveys in four different States and laying them before the Boards of Education and Boards of Trustees of the Conferences and institutions concerned; informing our people concerning the work and needs of our educational institutions through the observance of Education Day and other means; promoting Ministerial Supply and Training; coöperating with the correspondence schools in their work at Emory University and Southern Methodist University; preparing and publishing the CHRISTIAN EDUCATION MAGAZINE and numerous pamphlets and leaflets; joining the Sunday School Board and the Epworth League Board in preparation of the program and plans for the Conference on Religion and Education to be held at Lake Junaluska next July; keeping in close touch with the Educational situation in Texas and Arkansas and seeking to help them solve their delicate and difficult problems; and studying the whole educational field of our Church with reference to such legislation as should be enacted by the next General Conference.

MINISTERIAL TRAINING

As has previously been brought to the attention of this Board, the work of ministerial training needs special attention and consideration. It must be constantly emphasized and kept before our candidates for the ministry as well as our institutions of learning. A poorly trained ministry can never lead the Methodist hosts to proper attainments in Christian character and service. The training of our ministry has not kept pace with the educational standards of the masses of the people nor with the requirements in professional life. Our young people will not follow, but resent, an uneducated leadership. One result has been that the pastor has often ceased to be the "parson" or outstanding person in the community, and thus the Church has lost something of its prestige and influence. Christ's method of establishing his kingdom among men was to train the small group and send them out, confident that they would conquer the world in his name. No improvement upon this method has yet been found or even suggested.

There is a growing feeling among us that something special should be done for our pastors, especially those who have had poor educational advantages. The Board of Missions has recognized this need and proposed a school to be operated at Lake Junaluska as a nonstandardized institution and has made an appropriation for this work. To some of us it seems that the best way to meet this need would be not to establish a new school, but for several of those already in existence to offer courses of six and twelve weeks' duration especially adapted to the needs of those preachers in our Annual Conferences who have had meager training. If, at a half dozen places in the bounds of our Church, such courses could be given, the problem would be more satisfactorily solved and would reach a very much larger number than could be reached by just one institution, which would necessarily be remote from large sections of our Church and, therefore, inaccessible. Southern Methodist institutions should find some way to do for the young preachers with but little education what the Southern Baptist Church does for a great many of hers in the Theological Seminary at

Louisville. Perhaps this task ought to be undertaken by the Board of Education and the Board of Missions jointly. The Committee on Ministerial Training should give careful consideration to it.

The inter-board arrangement for a Life Service Bureau has been continued during the year with Dr. D. L. Mumpower of the Epworth League Board in charge. His annual report on this work is herewith submitted. The presiding elders, as heretofore, have been requested to send in the names and addresses of candidates for the ministry and all licentiates. During the year we have received reports from 69 presiding elders, giving the names and addresses of 147 licentiates and 23 candidates, making a total of 170. Of those reported by the presiding elders 103 have responded to requests to fill out cards for our files. We now have 2,037 enrolled and are trying to keep in touch with and cultivate them for the high calling of the Christian ministry.

PASTORS' SCHOOLS

The eighteen Pastors' Schools were held last year according to plans previously made and reported to this Board, except the one in Louisiana, where it was decided, in view of the prospect of a very small attendance, that it would be better to cancel the engagements with the several instructors, they being willing, and not hold the school. This conclusion was reached after a very careful canvass of the whole situation. The number attending Pastors' Schools last year doing graduate work and taking credits was 1,664, as compared with 1,269 the previous year. To these were issued 2,883 credits, as compared with 2,275 the previous year. In addition to these, many others attended as auditors in the several classes and received substantial help and inspiration. The total cost of the schools as reported to this Board was \$27,778.89, which was met in the usual way by the coöperating General Boards, assisted by the local boards of managers from funds provided by the Annual Conferences. These figures do not include the Northwest Assembly, where fourteen registered for credits and fourteen credits were given.

Christian Education Magazine

Plans have been made for sixteen Pastors' Schools this year and two Assemblies. The interest in the Louisiana School has not yet revived, and the one at Seashore Camp Ground is being held as a divinity school, somewhat after the former institute type. We have spent a great deal of time in coöperation with the several boards of management in making up the schedules and bulletins for these schools, copies of which are submitted for inspection. We think that a group of unusually strong men has been secured for platform addresses and instruction, and special effort is being made to secure the attendance of pastors through the coöperation of the presiding elders and deans of the schools and the boards of managers. Several new courses have been added and others modified so as to make them more helpful. The members of this general Board of Education ought to become familiar with the work of these schools and lend them their support.

UNDERGRADUATE COURSES

Immediately following the decision of the Committee of Appeals nullifying the action of the Board in limiting the undergraduate work in Pastors' Schools to two courses, letters were sent to all undergraduates urging that they take at least half of the year's work in the Correspondence School, and preferably all of it. This suggestion was favorably received and thus the purpose of the Board in limiting the number of courses to be taken was largely accomplished in another way. Last year eleven of the schools gave the Undergraduate Courses in full or in part.

DEPARTMENTS OF RELIGIOUS EDUCATION IN OUR COLLEGES

In accordance with the instructions and plans of the Board the Executive Committee has worked out a basis for the establishment of standard departments of Religious Education in our colleges and has made appropriations to eight of them amounting to \$10,000. These appropriations have encouraged very much our college authorities in strengthening and establishing these departments. In a short time, we believe, with the help

given by this Board, all of our colleges will have them. It is the judgment of your General Secretary and recommended by him that a larger amount be made available for this work, not less than \$20,000, and that the Executive Committee, working in coöperation with the staff, be instructed to extend the work so as to include the establishment of at least one year of work in religious education in the Junior Colleges. It is understood that Bible courses are being given in all schools and proper credit allowed for them. The Secretary of the Department of Religious Education, in his report, will give further details in regard to this work.

GENERAL CONFERENCE LEGISLATION

In accordance with the instructions of the Board, a Committee on General Conference Legislation was appointed consisting of the Chairman, Bishop E. D. Mouzon, Dr. H. N. Snyder, Dr. J. H. Reynolds, Dr. C. C. Grimes, and the General Secretary. This committee has held only one meeting, which was on December 11, 1928. As is known to the Board, the General Conference Educational Commission has been working for several years on a plan to consolidate the work of the Board of Education, the Sunday School Board, and the Epworth League Board along with the educational activities of the Board of Missions and the Board of Lay Activities. Although the final draft of the report of this Commission had not been completed when our Legislative Committee met on the above date, it had been practically completed, and copies had been placed in the hands of the several members of the committee for thorough study previous to their coming together. The committee gave careful and detailed consideration to the essential points and features of this proposed merger plan and made recommendations to the Commission, which was to have a meeting February 5-6, 1929.

These suggestions were laid before the Commission. One or two minor items were adopted, but the most far-reaching and vital recommendations were not adopted. The report of the Legislative Committee is as follows:

Christian Education Magazine

1. The Committee is entirely in sympathy with and approves the idea of placing the whole educational program of the Church under the direction of one Board, called in the proposed plan the Board of Christian Education.

2. The Committee thinks that a more logical and simpler division for the several departments of the proposed Board would be to have two instead of four departments, to be known as:

(1) The Department of Educational Institutions, for the schools and colleges, with subdivisions of ministerial supply and training, promotion and development, State school work, Pastors' Schools, Teachers' Bureau, etc.

(2) The Department of Religious Education in the local Church with several departments, including the local Church schools, teacher training, etc., to which might be added the editorial or publication department. Or, perhaps a third grand division should be made for editorial and publication department, as suggested in the plan.

3. For numerous reasons the Committee thinks that the Department of Ministerial Training should be taken out of the General Department of Training for Christian Work and placed, where it now is, in the Department of Schools and Colleges.

4. The Committee is very positively of the opinion that the classification of preachers should be limited to three groups, instead of five, based on their training and preparation, the first group being those who do not meet the standard requirements of two years of college; the second, those who do meet these requirements, but have no seminary training; and the third, those who have had seminary training.

5. The selection of the courses of study should be left to the College of Bishops, as it now is; but if a change is made, the Committee thinks it should be left to a committee composed of four bishops and three traveling elders, with final authority and without referring back for approval to the Board of Education and the College of Bishops.

6. Section IV should be taken up and combined with Section II, C.

7. The Committee does not agree that the name, the Church School should be substituted for Sunday School, but if the name Sunday School is abandoned, the substitute should be the Local Church School, and not the Church School.

8. The Department of Schools and Colleges should have a vital relation to the local Church, and the observance of Christian Education Day in the local congregation should be provided for, so that our institutions of learning may not only become known to our people and their work appreciated, but that they may assume some responsibility for their maintenance and support. We, therefore, suggest the observance of Education Day, or Week, or Month as each Annual Conference may determine, in connection with which an offering should be taken for our educational interests and

Christian Education Magazine

work, the Annual Conference, through its Board of Education, determining, with the approval of the General Conference Board of Education, what causes shall share in said offerings.

9. The Committee further recommends and earnestly urges that the constitution as thus far worked out be abridged and condensed to about one-half of its present size, with the elimination of numerous duplications appearing at present.

BISHOP E. D. MOUZON, *Chairman*;
H. H. SHERMAN, *Secretary*.

There is no more important question coming before the next General Conference than the work of this Board in behalf of our educational institutions. What this General Conference does for them and with them, or fails to do, will have very far-reaching effects for weal or woe. The proposed merger plan is seriously defective in that it does not make adequate provision for them. It gives them only a secondary place and largely overshadows them with other interests which are given primary and major consideration. By the time the Board meets, the plan will have been published and distributed to the Church. Presumably, most of our members will have seen it, although they may not have had time to study it thoroughly. In view of the issues involved, it is highly important that the Committee on Legislation be continued during the next year with instructions to study very thoroughly the proposed merger plan and provide such modifications as may be necessary to take proper care of our educational institutions. This Committee should be instructed to bring to the next annual meeting of the Board, just preceding the General Conference, carefully wrought out modifications of this plan as it will be presented to the General Conference so that if it is adopted our educational institutions will be adequately provided for. If it fails to be adopted, we must be ready for other important legislation supplementing the present law as contained in the Discipline. I quote from Dr. Anderson's report of a year ago:

Ours is a Church of many and great enterprises. Some of them have a much stronger emotional appeal than Education has. Without a definite commitment of the Church by the General Conference, there is danger of interest in and con-

Christian Education Magazine

sideration for the schools and colleges being crowded out of the minds of our people and off the stage of action. I suggest that you consider making a comprehensive survey of the educational work of the Church as it relates to the schools and colleges, with a view of presenting to the next General Conference for its consideration and adoption a definite program for the maintenance and development of the schools, colleges, and universities of the Church.

COLLEGE VISITATION

In accordance with the plans made at the last session of the Board, an additional man has been employed to assist the Secretary of the Department of Religious Education in college visitation. We have been very fortunate in securing the services of Rev. Nat G. Long, of Georgia, who has had excellent preparation educationally and has shown a zeal and success in performing his duties that is highly gratifying to us. He is a preacher on trial in the North Georgia Conference, a graduate of the University of Georgia and has his B.D. degree from Yale University. He has also studied a year in Edenburg, Scotland.

One of the chief difficulties and hindrances in the work of college visitation is due to the limited opportunity and meager coöperation given our representative when he visits some of our institutions. We are almost inclined to the policy of visiting only those that are so interested and assure us in advance that ample opportunity will be given for presenting the important message which this Board would carry to the student body. I suggest that the Committee on Religious Education give careful consideration to this difficulty and devise some plan to correct it. Would it not be wise and feasible to call to our assistance some of our bishops and pastors especially interested in and adapted to this work? The coming of a bishop to the college for two or three days with strong messages to the students would be an event in the life of the college.

THE CHRISTIAN EDUCATION MOVEMENT

In accordance with the instruction of the Board, this movement has been formally and finally closed. In three or four Conferences some final adjustments have yet to be consum-

mated. Since the Annual Conferences of 1928, all collections and pledges have been turned over to the several institutions concerned. In round numbers the total amount collected on the subscriptions is \$8,000,000. A like or larger amount has been received by our institutions during the last eight years as "new money," which is largely the fruitage of the movement. It is said that Napoleon was accustomed to regard every great battle as the preparation for another to follow. So it must be in our educational work. With our faces toward the rising sun and an undaunted courage, we must see that in the next decade our schools are made stronger and better than they are to-day and show a growth equal to that of the decade about to close.

DEPARTMENT OF PROMOTION AND FINANCE

The work of this Department has been carried on by the General Secretary along with his other duties. He has not been able to give as much attention to it as he would have done if he had been free to give it full time. But the Board will be interested to know that, in addition to plans for the observance of Christian Education Day in the local Church, an organization consisting of four or five suitable men in each district, including the presiding elder, is being built up for the entire Church. These ministers have first agreed to make a special study of Christian Education and to preach a fresh, vigorous sermon on the subject to their congregations; also to hold themselves in readiness to present it to other gatherings as they may be called upon and may have opportunity. When this organization is complete, and the progress is gratifying so far, we will have about a thousand of the strongest and best-trained men in our Methodism who are thinking about and giving special attention to this department of our work. Through them we will be able to cultivate the field and carry to the rank and file of our membership its urgent needs and opportunities.

A thorough study is being made of the best methods of reaching our constituency through literature and the printed page, and plans will be worked out for a closer coöperation between the General Conference Board and our institutions in

Christian Education Magazine

their promotional activities. The Annual Conference Visitation should be made more effective. Perhaps a mid-year meeting of the Annual Conference Board of Education should be held, where ample time will be given to educational interests, without the usual distracting influences of the Annual Conference season.

For some time we have had in mind to publish a small book to be called "A Manual of Our Educational Institutions," which would give the history, the needs, and the opportunities of our several institutions. By circulating this largely throughout the Church, our people would become more intelligent concerning our work, more educationally minded, and more liberal and loyal in their support. Such a book ought to have in it an authoritative statement of the educational ideals, aims, and standards of our Church schools, similar to the leaflet widely circulated during the Christian Education Movement, entitled "The Christian Platform of the Schools and Colleges of the Church." I suggest that the Board authorize the Executive Committee or the Committee on Schools and Colleges to prepare such a statement.

CHRISTIAN EDUCATION DAY

In order that our people may become more familiar with the work of our institutions of learning and the great work they are doing, we are urging the observance of Christian Education Day in the local Church. A larger use should be made of the day; it contains large possibilities. This year we are trying to emphasize the Conference institutions rather than the educational interests in general. Programs are being provided and other literature being sent out to pastors and presiding elders. At the District Conference the importance of observing this day is duly presented, and the presiding elder is requested to call special attention to it at the third Quarterly Conference in answer to question 15, items (3) to (6).

In accordance with the instructions of the Board at the called meeting held at Lake Junaluska July 17, 1928, the General Secretary has been looking for a suitable man to head up the Department of Promotion and Finance. The work is so im-

portant and far-reaching that he has felt it wise to go slowly and be sure of finding the man who would be adapted to and capable of carrying on this Department. A selection has been made which has been approved by the Executive Committee. His work at present makes it impossible for him to give full time at once to this Department, but several conferences have already been held with him, and we are working out plans which we think will not only appeal to the Church, but will also be very effective in promoting our educational interests. Public announcement of his selection will be made at the meeting of the Board April 30-May 1. He is well qualified for the position by reason of his educational background and training, his Church-wide acquaintance, and his practical experience in educational matters. We congratulate the Church on securing his services and likewise congratulate him on having the opportunity of investing his energies and his trained powers in so important a field.

CONFERENCE ON RELIGION AND EDUCATION

The Sunday School Board, the Epworth League Board, and the Board of Education are jointly putting on a popular Church-wide Conference on Religion and Education, to be held at Lake Junaluska, July 17-21, 1929. A very strong, attractive program is being provided in both topics and speakers. The conference will be limited to 3,000, and we hope every member of this Board will make his plans to be present. Two preliminary pieces of literature have already been sent out, copies of which are here presented for inspection. Articles on the purpose, plans, and personnel of the Conference have been appearing from time to time in the Church press. It bids fair to be one of the outstanding events during this quadrennium. It is expected that follow-up meetings will be held, so that not only those who attend at Junaluska will receive the benefit and inspiration of the occasion, but the information given and interest aroused there will be carried to the whole Church.

EDUCATIONAL SURVEYS

Following the annual meeting of the Board last May the General Secretary notified "all heads of our schools, Conference educational authorities, and bishops that upon invitation of Boards of Trustees, Conference Boards of Education, or Conference Educational Commissions" this Board would conduct at its own expense "comprehensive surveys of our institutions in their several territories, their effectiveness, service, and needs, using non-local, impartial, and competent person or persons" and "place these surveys at the disposal" of the several educational authorities and leaders. In response to this offer, surveys have been requested and made in Arkansas, Virginia, Texas, and North Carolina. Dr. B. Warren Brown, who appeared before the Board last year, was employed to make them and has done for the Board a very accurate, searching, and valuable piece of work. Copies of these surveys are submitted herewith for the inspection of any members of the Board who may be interested. Dr. Brown's reports have been highly commended and greatly appreciated by those who are working at the educational problems in the four States named. We feel that a very important piece of work has been done at a comparatively small cost. From the facts which have been collected and the recommendations made, an educational policy ought to be worked out on such a sound and permanent basis that we may with confidence call upon our people to support and patronize our institutions of learning in the States named.

THE ARKANSAS SITUATION

The Annual Conferences and the Boards of Education in Arkansas have been working diligently upon their educational problems for more than two years. The survey made by Dr. Brown showed clearly that it was practically impossible for Arkansas Methodism to maintain three standard colleges. Each Conference on two separate occasions declared for consolidating Hendrix and Henderson-Brown. The Arkansas legislature at its recent session passed a bill agreeing to take over Henderson-Brown College as a State Teachers' College, provided it was

offered free of debt. This somewhat simplified a rather sensitive and complex situation, though it did not solve all the difficulties. The joint Board of Trustees met in Little Rock, Tuesday, March 12, 1929, and, on recommendation of its Executive Committee, decided to approve the consolidation of Henderson-Brown with Hendrix College at Conway, under the name of Hendrix-Henderson, and to accept the offer of the State to take over Henderson-Brown as a Teachers' College.

Your General Secretary has sought to keep in close touch with the progress of these events in Arkansas and is convinced that Henderson-Brown and Hendrix should be combined at Conway. He also approves turning over Henderson-Brown to the State, provided the property interests of the Church in this institution are properly safeguarded. Since it is the function of the Board, according to paragraph 51 of the Discipline, to protect the property interests of the Church in educational institutions, it is recommended that the Board appoint a special committee, or authorize the Executive Committee, to investigate very carefully the conditions of turning over Henderson-Brown to the State and to take such steps as may be necessary to protect the interests of the Church.

While it simplifies the educational problem in Arkansas for Henderson-Brown to be eliminated in the way proposed, it does not seem to the General Secretary to be at all equitable for the Church to have to pay the bonus which the city of Arkadelphia ought to provide to secure a State institution and thus to surrender the assets accumulated there during a generation. He therefore recommends that this plan be approved, provided that only the physical property of Henderson-Brown be turned over to the State and that all of the endowment and loan funds, including both cash in hand and pledges or subscriptions unpaid, be turned over to the merged institution at Conway. This would mean that the debt of about a hundred thousand dollars now resting on Henderson-Brown would have to be taken care of by Arkadelphia and its friends in order to meet the proposition of the State. Further details will be given to the Board when it comes to consider this question.

Christian Education Magazine

WILDWOOD FARM

I am glad to report that the condition of things at the Wildwood Farm is decidedly more favorable than it was last year. The farm has been leased for five years to Mr. Sanford T. Freeman, beginning March 1, 1928. The net income to the Board during the year was \$1,991.61, which was applied as follows: annuity to Mrs. McClellan, \$362.50, permanent improvements, \$652.06; taxes, supplies, etc., for the farm, \$442.36; deficit of last year, \$213.18; cash turned over to the Board, \$321.51. The inventory of stock, grain, hay, etc., as of March 1, 1929, was \$2,325, as compared with March 1, 1928, which was \$2,200. However, there was no item of grain or hay in the inventory of 1928, so that the difference is rather apparent than real. I visited the farm and went over very carefully with Mr. Freeman the various matters in detail. As we have for the last few years made a number of substantial improvements on the place, it was decided, to which Mr. Freeman agreed, that the farm ought to be made to yield annually at least \$800 net to the Board of Education, \$300 of which should go to Mrs. McClellan as an annuity and \$500 to the Board. Any further improvements to be made must be earned over and above this amount. The farm seems to be well managed. Mr. Freeman is capable, dependable, and industrious.

LOAN FUNDS

There has been no appreciable increase in the loan funds of the Board. Loans amounting to \$18,625.50 have been made to 161 worthy, deserving students in 37 different institutions. The usual diligent efforts have been made to collect loans previously made and now due or overdue. The amount collected during the year is \$8,003.75. Our Treasurer has had some difficulty in collecting some of these loans, but, all things considered, he has been remarkably successful.

TEACHERS' AND CHRISTIAN WORKERS' BUREAU

During the year we have carried on our lists the usual number of trained teachers and sought to make them available to our

Christian Education Magazine

schools and colleges having vacancies. It is gratifying to note that many of them have had excellent training in both undergraduate and graduate work. Full information concerning them is furnished to our school authorities where there are vacancies to be filled.

Respectfully submitted,

H. H. SHERMAN.

Annual Report of the Secretary of the Department of Religious Education

I. GENERAL CULTIVATION

THAT gratifying progress has been made in the work of the Department of Religious Education the following report is intended to show. The process of cultivation has been intensive rather than extensive. Attention has been focused upon particular problems more or less peculiar to the spirit and aims of the Department, with less emphasis upon questions which, while important, may be considered as merely collateral.

1. Religious Education Conferences

Two major conferences on religious education have been enterprised by the Department during the year. One has been completed, and the other will reach its culmination the middle of July in the Lake Junaluska Conference on Religion and Education.

(a) The Conference at Chattanooga, held in January under the auspices of the Methodist Educational Association, drew into the range of its influence a number of workers in the field of Religious Education and in the field of pastoral ministry to State institutions. For the first time representatives from our schools and colleges enjoyed the advantage of the inspiring programs conducted by the Council of Church Boards of Education and the American Association of Colleges. The gathering in Chattanooga also afforded opportunity for close conference with leaders of religious education and for constructive planning with reference to future developments.

(b) At Lake Junaluska, the middle of July of this year, will culminate plans which have been under way for two years toward holding a Church-wide conference on religion and education. The Board of Education, inviting to its assistance the Epworth League Board and the Sunday School Board, has built

a program which bids fair to eclipse any attempt which has hitherto been made in this field. It is yet too early to estimate the probable attendance on the basis of registrations sent in, but if the manifestation of interest in the Church at large may be accepted as prophetic, the Lake Junaluska Conference is destined to attain notable success.

2. Literature

In addition to numerous articles for the press, the Department of Religious Education has produced bits of new literature which have been pronounced by capable critics distinct contributions to the work of the Department.

(a) In November, a special number of the CHRISTIAN EDUCATION MAGAZINE appeared devoted entirely to religious work in tax-supported schools. With little emphasis upon statistical exhibits the editors, by producing articles and criticisms prepared by student pastors themselves and persons engaged in teaching religious courses for credit, sought to present a picture of the work being done in tax-supported schools.

(b) Having for sometime recognized the need of confronting students in our schools with the program and the claims of the Church, the Department availed itself of the intelligent interest of Mr. Long in the preparation of a pamphlet to meet this need. The title, "A Clarion Call to Students," caught the attention and fired the imagination of students wherever the pamphlet has been distributed. The statistical material contained in the pamphlet was gathered by Mr. Long at great pains and furnishes the basis of startling revelations to students who have all too faint a conception of the magnitude and urgency of the program of the Church.

(c) Students have frequently asked why the General Board did not publish a magazine, or paper, to serve as the organ of student opinion and discussion. Mississippi students have pushed the agitation a step in advance of any other group. At the recent Student Conference held in Jackson, Miss., a rather voluminous paper prepared by students and done in legible multigraph was circulated among the delegates. Out of the in-

terest created came a resolution committing the Mississippi Student Conference to the ambitious enterprise of circulating a monthly paper among the colleges in Mississippi. When this effort is viewed in connection with the really meritorious bulletins which student groups prepare each week in various student centers, it constitutes an appeal which deserves most earnest consideration by the General Board.

3. Student Conferences

In Charlottesville, Va., in March and in Jackson, Miss., in April, were held the first Methodist Student Conferences under the patronage of the General Board of Education. A conference of the same kind for Texas had to be deferred from the spring to the fall months.

The two conferences which have already been held registered unmistakably a deep and intelligent hunger on the part of our Methodist students for the fellowship and inspiration which such conferences are designed to give, and they demonstrated the ability of students themselves to initiate, plan, and conduct religious meetings of hopeful significance. In the Virginia Conference the theme was "Experiencing God in My Life." The Mississippi students grappled for two days with the problem of "Understanding Jesus." When it is remembered that these topics were proposed by students and that the subtopics in elaboration of the general themes were all chosen by students, there is ground for renewed confidence in the essential spiritual quality of the youth with whom the Church has to deal. The total cost of the two conferences already held was \$559.41, of which the General Board of Education paid \$159. In preparation for the Texas conference, the Board has expended \$61.01, making a total of \$220.01.

As an indication of the growing interest in Methodist Student Conferences, it may be mentioned that students in Kentucky, Tennessee, Georgia, and Florida have expressed themselves as desiring conferences in their States next year.

4. College Visiting

One of the most telling additions to the strength of the

Department of Religious Education was the employment by the Board in September last of Mr. Nat G. Long as a college visitor. From the last week in September to the middle of December, Mr. Long was continuously in the field east of the Mississippi River. Beginning the first of February, he started on an itinerary covering Missouri, Oklahoma, Texas, Louisiana, and Mississippi. Reports from many places which Mr. Long has visited bring the assurance that his work among students has been productive, first of all, of a real quickening of interest in spiritual things; and, second, of a more intelligent loyalty to the work of the Church. In approval of his very wholesome attitude toward the problem of the students' religious life it may be said that the special emphasis upon the program of the Church in campus visitation has been due to Mr. Long's helpful advocacy of this policy.

A slightly wider range with somewhat less system in his itinerary has characterized the work of your Secretary. From Arizona to Florida and Virginia, the lines of the triangle may be constructed which include the geographical limits within which he has labored.

It has been the good fortune of your Secretary to take part in three experiments in campus visitation which he thinks are worth reporting to you. At Tucson, Ariz., the pastor of our University Church planned a week's series of meetings for students at the very opening of the fall session of the university. The attendance grew each evening in spite of the fact that evidently the same individual students were not present many times in succession. The emphasis was not upon organization and administration, or methods of doing student work, but rather upon the deep-lying attitudes of students to the highest spiritual claims. Pastor and students, as well as leading members of the Church, were emphatic in testifying to their conviction of the value of the series.

At Henderson-Brown College, and at the University of Louisiana, your Secretary had the unusual experience of working for a week at each place in harness with a Y. M. C. A. secretary. At Henderson-Brown it fell to his lot to speak to the students each day, while the Y. M. C. A. secretary engaged in interviews

Christian Education Magazine

and group conferences as the interest developed. At the University of Louisiana your Secretary undertook the unusual service of speaking each afternoon to a group of members of the university faculty on their relation to the moral and spiritual development of students. The Y. M. C. A. secretary addressed groups of students and engaged in conferences and personal interviews.

These experiences fit in with a growing disposition on the part of Christian Association leaders to enter into active co-operation with Church leaders in the program of student work. At the Regional Council of the Y. M. C. A., held in Atlanta in March, an entire day was devoted to a discussion of the relation between the Christian Association and the Church. The group voted a resolution calling upon the staff of the Regional Council and the church representatives who were present to propose a plan of coöperation which would include campus work, college visiting, and student conferences. In view of this development, the question arises whether the General Board would be justified in making appropriations to student conferences in which the Christian Association and the Churches are jointly involved.

A half dozen or more visits to State institutions in widely separated parts of the country were made during the year in the interest of credit courses in Bible and religious subjects. Discussion of this phase of his work will appear in a different section of this report.

It grows more certain every year that a really adequate plan of college visitation will depend upon the employment of regional or State student secretaries. Already interest in such a development has grown to considerable proportions in Texas and in Mississippi. It begins to appear that the surest reënforcement to the student pastor on the college campus will be deeper cultivation by properly trained persons who will confine themselves within certain limited regions of student population.

It is also a growing conviction of your Secretary that actually effective college visiting waits upon the development of a far more definite plan of action than has yet been proposed, and which, when proposed, must receive unstinted support on the part of college faculties.

Christian Education Magazine

The formation of Methodist Student Councils has proceeded with gratifying results. By correspondence with the officers of these councils college visitation has been heightened in significance and the cultivation of interest in Student Conference greatly facilitated.

5. Bible Conferences

Bible Conferences were at one time enterprised and conducted under the auspices of your Department of Religious Education. As noted in a former report this feature of the work has been allowed to lapse. It is worthy of mention, however, that the Sunday School Board has seen fit in several instances lately to conduct just such Bible conferences as this Board originally fostered. This raises the question of the desirability of intelligent and effective coöperation between the Sunday School Board and the Board of Education in promoting Bible Conferences throughout the connection.

II. DEVELOPMENTS IN RELIGIOUS WORK IN TAX-SUPPORTED SCHOOLS

1. First, it is worthy of earnest consideration by this Board that interest in credit courses in religious subjects is evidently on the increase. A book recently published, entitled "Religious Education and the State," shows by authentic figures that this is true for the whole country. The experience and observation of your Secretary in the rather limited field in which he works confirms the thesis of the author of the book. During the year your Secretary has conferred with educational leaders and faculty members about introducing religious courses for credit in the following State institutions—namely, the Agricultural and Mechanical College of Texas; the Teachers' College at Springfield, Mo.; Clemson College, S. C.; State Teachers' College, Nacogdoches, Tex.; University of New Mexico; State Teachers College, Murray, Ky.; Louisiana Technological, at Ruston, La.; the Teachers' College Murfreesboro, Tenn.; the University of Tennessee, at Knoxville; and the University of Kentucky, at Lexington.

Christian Education Magazine

Of these, the Teachers' College, at Nacogdoches, Tex., has already introduced Bible courses for credit. Clemson College, S. C., and Agricultural and Mechanical College, Tex., will offer courses beginning with the opening of the term in September; and the University of New Mexico stands ready to inaugurate credit courses as soon as an instructor is provided. At the University of Tennessee, a scheme for a Department of Religion has been inaugurated, with a dean and instructors, and the prospect of early recognition on a credit basis by the university is bright.

A new kind of opportunity presents itself to the Board for effective religious teaching in tax-supported institutions. The University of Tennessee desires to introduce a six weeks' course in Religious Education during its summer school. Through our student pastor at Knoxville, an inquiry has been received as to whether the General Board will furnish an instructor for this course. When it is remembered that the summer school enrolls hundreds of teachers of the public school system, the effect of such a course in religious education upon the minds of the children and youth of the country cannot easily be calculated. This matter is brought to your attention with the earnest desire that it be given the most prayerful consideration.

While appreciating at its full value the pastoral ministry of well-trained young men to students, educators in increasing number express the conviction that the classroom approach furnishes a form of service at once more constructive and more permanent than that of the student pastor. It will be necessary for the General Board to consider this attitude very carefully in determining its policy for the future.

2. In thirty cases the General Board participates in the support of a student pastor in the college community. Of these, all except eight have suffered a change in personnel during the year. In other words, more than two-thirds of our present employed staff of student pastors is new and therefore in large measure untried. Support of a full-time student pastor has been resumed at the University of Virginia.

In spite of this fact, unmistakable gains are being registered every year in the work undertaken among the students of tax-

supported institutions. A technique is being developed which can be passed on from one worker to another, thus making possible some continuity of impressions in spite of the change in personnel. Increasingly pastors of university Churches and members of the faculty of these institutions voice appreciation and commendation of the work of our student pastors. The Special State Schools Number of the CHRISTIAN EDUCATION MAGAZINE showed that our student pastors ministered the past year to 12,770 Methodist students, recorded the attendance of 5,091 at the regular Church services, enlisted the interest of 3,742 in the work of the Sunday school, and directed the activities of 2,259 in Epworth Leagues and Young People's Societies. Their report shows also that 40 students have been recruited for the ministry in these State institutions, and 27 for missionary service, while personal interviews with students mount to the significant total of 2,634.

3. In thinking of the directions in which improvement is most greatly needed, it is necessary to mention, first of all, the college Church pulpit. While progress has been made in securing competent men for these pulpits, much yet remains to be desired. Without a strong man in the college Church pulpit, it is practically impossible to develop an effective program of religious work with students. In every Annual Conference there are finely equipped men who could take these pulpits. In many instances, they are recent graduates of our own or other theological seminaries, but their age and the short time they have served in the Conferences make it difficult, if not impossible, to place them where they are most competent to serve.

(a) The General Board has supplemented the salaries of certain men in college Church pulpits. It seems to grow clearer that the General Board should demand a higher type of preacher as a condition of making an appropriation to supplement the salary of a college Church pastor.

A year ago requests reached the Board for aid in placing competent men in the pulpits where Junior Colleges are located. Extended inquiry revealed an urgent need in this area of education. Will not the Board at this time take action to meet this situation?

(b) As a means of stabilizing the personnel of our student pastor staff, it is certain that we shall have to standardize the income of the student pastor. Faithful service and efficiency ought to be rewarded with an increase in salary. Only in this way can we hope to retain strong men for these positions. A university center in which a required standard of service is rendered ought to be allowed an appropriation of at least \$1,500. If the student worker is willing to remain in his position and grow into ever-increasing usefulness, the Board and the local authorities ought to consider it a matter of primary importance to make his position as attractive financially as other positions which may appeal to him.

For the present scholastic year the General Board allotted for religious work in tax-supported institutions, \$33,700, \$3,700 of which was expected to come from the Epworth League Board. While a part of this amount has not been used, nevertheless, additional demands upon our resources make all too apparent the inadequacy of the funds available for this work. The fact is that with more latitude of choice the staff of the General Board could have placed several thousand dollars to splendid advantage in promoting new enterprises.

III. PROGRESS IN RELIGIOUS EDUCATION IN CHURCH SCHOOLS

For the first time since its establishment in 1922 your Department of Religious Education is able to report definite improvement in the status of Religious Education in Church Colleges. Two aspects of the present situation will prove of special interest to the members of the Board.

1. The first achievement to be mentioned, and one which should be the cause of pride and hopeful expectation is the completion of the curriculum of Religious Education for a standard department. Having worked upon the problem since the General Conference of 1922, the Joint Committee, at a meeting held in Nashville last December, put the final touches upon the curriculum for A-grade colleges. The heart of the Committee's report is expressed in the following requirement—namely, "to be regarded as having a Department of Religious Education, a college must:

"(1) Offer at least six session hours each year in Religious Education available to undergraduates.

"(2) These courses must be taught by an instructor,

"(a) Who has had at least two years of graduate study in an approved graduate institution, and at least one year of this in Religious Education;

"(b) He must give at least one-half of his time to the teaching of Religious Education."

On the authority of the Joint Committee the report was multigraphed and distributed among the colleges of the Church.

2. The second step in the progress achieved was the decision of the General Board a year ago to set aside \$12,000 to aid in the establishment of standard departments of Religious Education. Following this action your Department of Religious Education circulated among the colleges a questionnaire designed to disclose the actual condition of Religious Education in the colleges. Only four institutions failed to return answers to the questionnaire. They were Columbia College, S. C.; Wofford College; Greensboro College for Women; and Lander College. On the basis of replies received, appropriations were granted to the following institutions:

Birmingham- Southern	\$1500 . .
Emory and Henry	1000
Henderson-Brown	1000
Hendrix	1500
Lambuth	1000
Morris-Harvey	1000
Southern	1500
Wesleyan	1500

Many colleges which returned replies to the questionnaire were found unable to meet the requirements of the Joint Committee, and therefore no help was extended to them. In almost every case, however, the colleges in question are planning definitely to strengthen their work in Religious Education so as to fulfill the requirements of the Joint Committee and thus become eligible for assistance from the Board.

The response which the colleges have made to the proposals of the Joint Committee constitutes one of the most encouraging

developments in the field of Religious Education. The Church college has always admitted its obligation to provide a liberal education of high quality. Now it is beginning to take seriously its obligation to teach religion as a part of the preparation of its graduates. Increasingly, it is to be expected that the Church college will also provide for training in the vocations of the Church. To quote one of our own professors of religious education: ("The Church has a right to expect of its educational institutions some emphasis upon its own denominational interests. . . . Methodism has ever treasured the romantic story of her origin and development, her evangelical and spiritual power, and her notable place in the world to-day. She has thus far done little to set these ideals before her youth, but the story deserves telling in some form to the Methodist college student, and ways must be found for it.")

IV. BUDGET

Your Secretary believes that the rate of progress in the work of the Department of Religious Education justifies the expectation of increased financial resources. With wise and judicious management it is beyond question that \$40,000 will be required for accomplishing the results in this field so greatly desired.

Falling off in the receipts from the Epworth League Specials designed to carry the work at Tucson, Ariz., and Berkeley, Calif., will make it necessary either to curtail the program at these important centers or secure additional funds from other sources.

The General Board is, therefore, requested to consider the above figure as the minimum appropriation for the Department of Religious Education.

V. RECOMMENDATIONS

1. That, in allotting funds preference be given to programs where courses for credit are allowed.
2. That the Board adhere to the policy of rewarding effective work by providing larger financial resources before encouraging the opening of new work.
3. That the employment of three Regional Student Secre-

taries be encouraged on the basis of regional support supplemented by funds from the General Board.

4. That a higher standard of personal efficiency be insisted upon as a condition of supplementing pastors' salaries in college Church pulpits, and that the disposition of our funds by granting appropriations in negligible amounts be discontinued.

5. That a contingency fund be provided adequate to permit the staff to enter doors of opportunity which open unexpectedly—*e. g.*, the invitation to establish a Department of Religion in New Mexico University.

6. That the Board provide for coöperation between the Church and the Christian Associations in carrying on religious work with students.

7. That the staff be permitted, if its judgment approves, to enlarge the scope of the CHRISTIAN EDUCATION MAGAZINE to meet the need for an organ of student opinion and activity.

8. That, in addition to the usual greater conferences on Religious Education, the Board enterprise smaller conferences in restricted areas for the purpose of more intensive cultivation of the field.

9. To carry on the work of the Department with creditable efficiency, your Secretary estimates that a budget of \$40,000 will be necessary.

In sincere thankfulness for the amazing opportunities of service arising in every direction, and with a growing sense of indebtedness to college authorities and students for helpful support and to the members of the General Board and of the staff for wise counsel and inspiring coöperation, this report is respectfully submitted.

J. MARVIN CULBRETH.

Annual Report of the Treasurer

THE Grannis-Blair Audit Company, certified public accountants, were employed by the Finance Committee to audit the accounts of the Board for the fiscal year ending March 31, 1929. The auditors' report is herewith submitted.

Major Objectives of the Department of Promotion and Finance

ROBERT H. RUFF

THE Department of Promotion and Finance was created by the Board of Education at its annual meeting in 1927. The establishment of this Department was an effort on the part of the Board to conserve the values of the Christian Education Movement on the one hand, and, on the other hand, to make possible a continuous plan for the cultivation of our people in the interest of Christian education. Dr. H. H. Sherman, who was serving as Associate General Secretary of the Board of Education, in charge of the Christian Education Movement, was asked to head the new department. Dr. Sherman served in this capacity until he was called to the General Secretaryship of the Board, made vacant by the death of Dr. Stonewall Anderson. The writer of this article, at the meeting of the Board in May, 1929, was elected to this vacancy.

The Board of Education through this Department, is endeavoring to create a deeper consciousness throughout the Church of the value and place of Christian education in the life of our denomination. The Church is definitely committed to a program of higher Christian education, but this program cannot succeed unless there is whole-hearted support on the part of both preachers and laymen. Our educational institutions are heroically seeking to become more effective agencies and to render larger service to the Church. This cannot be done, however, unless they are given proper support.

The work of the Department will be carried on along five major lines.

I. TO DEEPEN THE EDUCATIONAL CONSCIOUSNESS OF THE PASTORS AND MEMBERSHIP OF THE CHURCH

It is obvious that upon the success of this effort—an effort to create an appreciation on the part of our people of the work of the Church college—will depend the success or failure of our institutions of learning. Certainly there is no more effective

Christian Education Magazine

way to do this than to reach the Church membership from the pulpit.

One of the plans of the Department is to secure the appointment by the presiding elder and Conference secretary of Education of three or four leading pastors in each presiding elder's district, each of these pastors agreeing to preach a sermon on Christian education in his own Church, and who will be ready to accept a call to preach elsewhere in the district as the occasion may arise. To date over four hundred pastors have agreed to take part in this Church-wide effort.

II. CREATION OF LITERATURE

Calls are constantly coming from the pastors throughout the Church for literature dealing with the objectives and work of our Christian colleges. Efforts are being made to meet this demand by the creation of literature which will set forth the work of our institutions. A series of booklets will be issued, emphasizing one main idea, such as: the Church must educate or die, true value of Christian education, the objectives of denominational education. A handbook on Methodist education will also be issued. This handbook will set forth all the facts about our entire educational program. Also it is proposed to make certain changes in the CHRISTIAN EDUCATION MAGAZINE. It is hoped that this magazine can be made more popular. In order to do this, at least two issues during the year will be made up of human interest stories connected with our educational institutions, and in addition, large use will be made of pictorial material.

III. EDUCATIONAL SURVEY

Before we can create an adequate literature it is necessary that we secure fresh facts concerning the educational situation in our Church. A survey will be projected within a short time seeking to obtain, among other facts, the following:

(a) Show the extent to which our Church colleges promote religious values over and above the educational standards of a purely secular type.

(b) The contribution which our Church colleges are making to the total program of the denomination.

Christian Education Magazine

(c) The financial needs of our institutions must be found out if they are to meet the recognized standards of their respective classes and types.

IV. LOAN FUND

Perhaps the Board has no greater responsibility resting upon it than that of helping to make possible the training of an efficient ministerial leadership. Not only must we have Christian colleges and seminaries wherein our ministerial candidates may be trained, but it is equally necessary for the Church to make it financially possible for these persons to secure the needed training. The Board has done a very creditable piece of work thus far in helping our ministerial students. We have to date something like \$200,000 in our Student Loan Fund. This, of course, is totally inadequate to meet the demands which are upon the Board. The other denominations, as a rule, have loan funds far in excess of what we have at present. One denomination has been adding to its fund at the rate of \$300,000 a year for the past several years. Our loan fund should be brought to a minimum of \$500,000 within a reasonable length of time. One piece of literature, "Workmen Unashamed," has just been issued which deals with this matter.

V. CONFERENCES ON RELIGIOUS EDUCATION

The whole Church has been heartened by the recent Conference on Religion and Education held at Lake Junaluska during the month of July. The Department hopes to aid in promoting conferences of a similar nature in various sections of the Church. Such meetings, if held, would not need a large array of talent, as used at Junaluska. Possibly two speakers would be used from the outside in addition to Conference and State leaders. The Department will endeavor to promote Conference and State-wide meetings from time to time in the interest of Christian education within the bounds of the Conferences and States concerned. By this means it is hoped that a new interest may be stimulated in the cause of Christian education.

*Minutes of the Thirty-fifth Annual Meeting of
the Board of Education of the Methodist Epis-
copal Church, South, Nashville, Tenn., April
30, 1929*

PURSUANT to call, the Board of Education met in the Bishops' Room at the Publishing House, Nashville, Tenn., at nine o'clock Tuesday morning, April 30, 1929, with Bishop E. D. Mouzon in the chair.

Bishop Mouzon led the devotional services with Scripture reading and prayer, after which the roll was called, and the following members were noted as present: Edwin D. Mouzon, Hoyt M. Dobbs, C. H. Booth, J. L. Clark, J. R. Countiss, J. S. French, Sterling Fisher, C. C. Grimes, R. G. Mood, W. F. Quillian, G. W. Read, H. H. Sherman, Andrew Sledd, H. Sydenstricker, E. E. White, R. H. Wynn, R. J. Yoak, L. W. Duval, Carl Hollis, E. P. Puckett, J. H. Reynolds, H. N. Snyder.

Minutes of meetings of the Executive Committee, which had been typed and sent out to the members of the Board, were approved without reading.

The following nominations by the Committee on Nominations were made and upon proper motion elected: J. R. Countiss to be a member of the Committee on Finance, H. Sydenstricker to be a member of the Committee on Ministerial Education and Life Service, Sterling Fisher to be a member of the Committee on Promotion and Finance.

Dr. Sherman announced that Bishop Cannon was kept from meeting with the Board on account of the death of a near relative and that Judge Candler was kept away by sickness in his family. It was also reported that Dr. R. E. Blackwell was kept away by sickness in his family. Upon motion the secretary was directed to send telegrams to these brethren expressing the sympathy of the Board.

A motion prevailed to the effect that the reports of the Secretaries should be read and the various sections of the reports, together with any other relevant matters, should be referred to the proper committees; and that the Board should then adjourn to

give these committees an opportunity to prepare their reports for the afternoon session.

Dr. Sherman reviewed his report and the various sections were referred to the appropriate committees. During the reading of his report Dr. Robt. H. Ruff, the new secretary of the Department of Promotion and Finance, was called to the front and introduced to the Board.

Dr. Culbreth presented his report and its sections were properly referred.

Mr. Hogan presented the Treasurer's report and it was referred to the Auditing Committee.

Various reports and papers were presented by Dr. Sherman and referred to the proper committees.

The Trustees of Southern Methodist University submitted for confirmation a list of reelected and newly elected Trustees as follows: Northwest Texas Conference, Rev. J. T. Griswold, 1928-32, Childress, Tex.; E. H. Pigg, 1928-32, Vernon Tex.; Texas Conference, Rev. James Kilgore, 1928-32, Dallas, Tex.; Ed. Stedman, 1928-32, Beaumont, Tex.; West Texas Conference, Henry Ernest Jackson, 1928-32, San Angelo, Tex.; new member, West Texas Conference, Rev. Gaston Hartsfield, 1928-32, Corpus Christi, Tex. On motion, the Board confirmed these Trustees as elected.

A minute on the death of Dr. Stonewall Anderson from the Journal of the Council of Church Boards was read by Dr. Sherman and, on motion, was ordered incorporated in the minutes, as follows:

"The Council of Church Boards of Education has learned with very deep regret of the death, since the last annual meeting, of Dr. Stonewall Anderson, the Executive Secretary of the Board of Education of the Methodist Episcopal Church, South.

"Dr. Anderson was a consistent member of this Council, at different times a member of its Executive Committee, and at one time its President. He was an acknowledged leader in Christian education, not only in his own Church and section, but in the whole Christian Church and the entire country. He was a firm believer and a staunch defender of the Christian element in education. He believed that the most complete and best

Christian Education Magazine

rounded education was to be had in a Christian college, and he threw the great weight of his strong personality into the development of the colleges of the Church. His towering figure, his winsome and dominating personality, his forceful expression of clear ideas and withal his fine Christian spirit, made him a conspicuous and welcome member of any educational group.

"The Council of Church Boards, of which he was a loyal and devoted friend, deeply regrets that in our Council we shall see his face no more, and we express to the Board of Education of his Church our sympathy in the loss of their great leader, our friend.

A communication from Dr. Hearn, teacher in the Bible School at the University of Missouri, was referred to the Committee on Religious Education.

TUESDAY AFTERNOON SESSION

The Board was called to order by Bishop Mouzon at four o'clock and the devotional exercises were conducted by Dr. E. E. White.

The minutes of the morning session were read and approved.

Dr. Sherman read a telegram from Dr. R. E. Blackwell announcing the death of his wife. An appropriate telegram was substituted for the telegram ordered at the morning session.

A letter from Judge Candler was read by Dr. Sherman, also a telegram by the Secretary, in which Judge Candler acknowledged the telegram which had been sent by the Board.

It was moved and carried that the Secretary be directed to send letters to the families of Mr. Asa Candler and Mr. B. N. Duke, expressing the appreciation of this Board for the benefactions conferred upon the cause of education by these men and expressing our sympathy in their passing.

The report of the Auditing Committee was presented by Dr. R. G. Mood and adopted as follows:

"We have had before us the Treasurer's report, the report of the Audit Committee of the Correspondence School of Southern Methodist University, and the report of Richardson, Jackson & Davis, certified public accountants, of the Correspondence

School of Emory University, the report of Granni-Blair Audit Company, certified public accountants, of the funds of the General Board, and a report from Mr. Freeman, the tenant of Wildwood Farm.

"We have carefully examined all the above reports, verified totals, and we find these reports all agree and are correct.

"We commend our Treasurer, Mr. Hogan, upon the efficient manner in which he kept the records of his office and also in the handling and accounting for the various funds of the Board."

The report of the Committee on Schools and Colleges was presented by Dr. Quillian and adopted as follows:

"Your Committee has considered the Arkansas situation and hereby recommends that the General Board of Education adopt the following resolution:

1. That the General Board of Education of the M. E. Church, South does hereby commend the educational statesmanship of Arkansas Methodism as expressed by the Little Rock and North Arkansas Conferences and the Board of Thirty in the adoption of the plan for the merging of Hendrix College and Henderson-Brown College.

2. That this Board heartily approves the generous spirit manifested in the terms of settlement as proposed between the Church and the city of Arkadelphia.

"We commend the work of the Teachers' Bureau and suggest that this Bureau shall prepare two lists of prospective teachers; one for junior colleges and the other for senior colleges and that these lists be made available for college administrators."

The report of the Committee on Ministerial Education and Life Service was presented by Dr. Andrew Sledd and adopted as follows:

1. Dr. Mumpower's report of the work of the Inter-Board Bureau of Life Service was received and read and approved by the Committee. The Committee recommends the continuance of this work and the renewal of the usual appropriation of \$450 therefor.

2. The Committee recommends that the Committee on General Conference Legislation be requested to take the necessary

Christian Education Magazine

steps to procure a change in the Discipline, which shall exclude all undergraduate studies from the Pastor's Schools.

3. The Committee recommends that the Budget Commission be asked to make an additional appropriation in the general assessment of \$10,000 for each of the theological schools and of \$30,000 for scholarships in the schools of theology.

4. The work of the Department of Promotion and Finance was before the Committee, and the Committee commends this enterprise and urges the continuance of an effort to build up the Loan Fund of the Department.

The report of the Committee on Promotion and Finance was presented by Judge Duval. The report was adopted as follows:

"Your Committee had under consideration the items in the reports of Dr. Sherman and Dr. Culbreth referred to us.

"We strongly indorse the recommendation by the General Secretary that suitable men in each presiding elder's district be secured to preach sermons on the subject of Christian Education, both in their own congregations and others to which they may be called.

"We earnestly recommend that our Annual Conference Boards of Education arrange to hold mid-year meetings.

"In order that our local congregations may be kept in closer touch with our schools and colleges, we urge that each Annual Conference set aside some specific Sunday as Christian Education Day, and that all our local churches observe it.

"We re-affirm the former action of this Board in making provision for educational surveys under the conditions set forth in that act.

"Approval is given to the publication of a 'Manual of Our Educational Institutions,' with the suggestion that it be divided into sections, and also to the publication of a students' magazine, provided the latter can be adequately financed and properly edited.

"We congratulate the Board on securing the services of Dr. R. H. Ruff as Secretary of this Department and pledge to him our earnest support."

The report of the Appropriations Committee was presented by Dr. Quillian and adopted as follows:

Christian Education Magazine

I. ADMINISTRATION AND PROMOTION

Salaries of Headquarters Staff.....	\$20,100 00
House rent of Headquarters Staff.....	3,200 00
Salaries of office assistants.....	7,000 00

	<hr/>
	\$76,300 00

We recommend that the Executive Committee be authorized to distribute the amounts appropriated to schools, State school work, and Department of Religious Education.

WEDNESDAY MORNING SESSION

The Board was called to order by Bishop Mouzon at nine o'clock, and Dr. Quillian led in prayer.

The minutes of yesterday afternoon session were read and approved.

Christian Education Magazine

Report No. 2 of the Committee on Appropriations was presented by Dr. Quillian, and adopted as follows:

The Committee on Appropriations met in a second session, Bishop E. D. Mouzon in the chair.

A communication from Dr. Andrew Sledd, representing the Correspondence School of the Board of Education at Emory University, was before the Committee.

Upon motion it was recommended that each instructor shall receive a fixed salary of \$300 per year for an enrollment of 300 or less, and a bonus of \$1 shall be paid to each of the five instructors, the Director and the Secretary, for each student enrolled in excess of 300 as shown by the Annual Report to the Board of Education.

It was voted that the Executive Secretary make a sympathetic study of the Correspondence School at both Emory and Southern Methodist Universities and that he present a report at a subsequent meeting of the Board.

Dr. F. S. Parker, representative of the Commission on Reorganization of Church Boards, was presented to the Board and brought a message concerning the work of the Commission.

After an informal discussion of points brought out in Dr. Parker's address, the question of a special meeting of the Board was taken up. It was moved by Bishop Dobbs, and duly seconded, that when we adjourn we adjourn to meet at Lake Junaluska on Tuesday evening, July 16, 1929. This motion was carried.

The report of the Committee on Religious Education was presented by Mr. Hollis, and adopted as follows:

The Committee first considered paragraphs from the report of Dr. H. H. Sherman. The recommendation of the General Secretary that larger provision be made for the development of Departments of Religious Education in Church colleges was approved, including the asking of \$20,000 for use in this important enterprise.

The General Secretary's suggestion in regard to a larger program of college visitation was approved by the Committee with the request that the staff work out a plan that will meet the requirements of the case.

The Committee commends the action of the Board in employing Mr. Nat G. Long as a college visitor and is gratified because of the splendid work he has already accomplished. We urge the Board to continue this work, retaining Mr. Long.

The Committee warmly approves the plans that have been under way

Christian Education Magazine

for some time for holding a Joint Conference on Religion and Education at Lake Junaluska in July of the present year. The Committee registers the conviction that, in the event of demonstrated success in holding the Conference at Lake Junaluska, a similar Conference should be held at Mount Sequoyah in the summer of 1930.

A letter was before your Committee concerning the employment of a Jewish instructor in the Bible College of Missouri. This Committee approves the employment of a Jewish professor in this school for the instruction of Jewish students.

In considering the report of the Secretary of the Department of Religious Education, the Committee first of all desires to commend the report submitted by the Secretary and express appreciation of his grasp of the affairs of the department. The recommendations of the Secretary submitted to the Committee were discussed with great care, and the following matters are approved and passed on to the Board for its consideration and adoption:

1. That in allotting funds for work in tax-supported institutions preference be given to programs where courses for credit are allowed.

2. That the Board adhere to the policy of rewarding effective work by providing larger financial resources for its support before encouraging the beginning of new work.

3. That the employment of regional student secretaries be encouraged, provided regional financial support is sufficient to justify financial assistance from the General Board.

4. That a higher standard of personal efficiency be insisted upon as a condition of supplementing pastors' salaries in college church pulpits and that the disposition of our funds by granting appropriations in negligible amounts be discontinued.

5. That the staff be allowed greater freedom in making allotments for the support of religious work in tax-supported institutions.

6. That the Board approve coöperation with the Christian Association in carrying on religious work with students without, however, assuming any financial obligations. Meeting the request of the Regional Council of the Christian Association that two representatives from our Church be elected by the Board for membership in the Regional Council, your Committee submits the name of the Secretary, J. M. Culbreth, and that of Mr. Jeff Cunningham, student.

7. That the staff be requested, if its judgment approves, to enlarge the scope of the CHRISTIAN EDUCATION MAGAZINE to meet the need for an organ of student opinion and activity.

8. The report of the Joint Committee on a curriculum of Religious Education for a standard college was before your Committee. Your Committee approves the report and commends it to our colleges for suggestion and guidance in developing departments of Religious Education.

9. In order to carry on the work of the Department with creditable ef-

Christian Education Magazine

iciency, your Committee asks for an appropriation of \$40,000 for the Department of Religious Education to be used in the support of religious work among students, provided that no restriction is thereby placed upon other important activities of the Board.

Report No. 2 of the Committee on General Conference legislation was presented by Dr. Sherman as follows:

Your Committee on General Conference Legislation reaffirms the convictions expressed in its findings of December 11, 1928, and included in the General Secretary's report on pages four and five, as found in items 1, 2, and 3, as follows:

1. The Committee is entirely in sympathy with and approves the idea of placing the whole educational program of the Church under the direction of one Board, called in the proposed plan the Board of Christian Education.

2. The Committee thinks that a more logical and simpler division for the several departments of the proposed Board would be to have two instead of four departments, to be known as:

(1) The Department of Educational Institutions, for the schools and colleges, with subdivisions of ministerial supply and training, promotion and development, state school work, Pastors' School, Teachers' Bureau, etc.

(2) The Department of Religious Education in the local church with several departments, including the local Church schools, teacher training, etc., to which might be added the editorial or publication department. Or, perhaps a third grand division should be made for editorial and publication department, as suggested in the plan.

3. For numerous reasons the Committee thinks that the Department of Ministerial Training should be taken out of the general department of training for Christian work and placed, where it now is, in the Department of Schools and Colleges.

A motion prevailed to defer the consideration of this report until the July meeting of the Board.

Dr. Sherman moved that the Board authorize the Executive Committee to take up with the Home Secretary of the Board of Missions the question of further training of those preachers in the Annual Conferences whose education is meager and see if some coöperative plan might not be worked out by which the needs of these preachers may be met through the educational institutions already existing rather than by establishing new institutions for this purpose; also that a very careful investigation should be made as to the number of these preachers, their

Christian Education Magazine

location, their needs, and their desires for further training. After some discussion, the motion was carried.

The minutes of the morning session were read and approved, as corrected.

The Board adjourned.

E. D. MOUZON, *President*;

C. C. GRIMES, *Secretary*.

Colleges Having Membership in Regional Standardizing Association

OUR Church no longer maintains an agency for standardizing colleges. The following colleges of the Methodist Episcopal Church, South, are members of a regional standardizing association:

A. ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS OF THE SOUTHERN STATES

Colleges

Birmingham-Southern College.....	Birmingham, Ala.
Centenary College of Louisiana.....	Shreveport, La.
Duke University.....	Durham, N. C.
Emory University.....	Atlanta, Ga.
Emory and Henry College.....	Emory, Va.
Greensboro College.....	Greensboro, N. C.
Millsaps College.....	Jackson, Miss.
Randolph-Macon College.....	Ashland, Va.
Randolph-Macon Woman's College.....	Lynchburg, Va.
Southern Methodist University.....	Dallas, Tex.
Southwestern University.....	Georgetown, Tex.
Wesleyan College.....	Macon, Ga.
Wofford College.....	Spartanburg, S. C.
Woman's College of Alabama.....	Montgomery, Ala.

Junior Colleges

Andrew College.....	Cuthbert, Ga.
Hiwassee College.....	Madisonville, Tenn.
Lon Morris College.....	Jacksonville, Tex.
Whitworth College.....	Brookhaven, Miss.

B. NORTH CENTRAL ASSOCIATION OF COLLEGES AND SECONDARY SCHOOLS

Colleges

Central College.....	Fayette, Mo.
Hendrix College.....	Conway, Ark.

DIRECTORY

(Continued from page 2 of cover)

Ministerial Education and Life Service.—Hoyt M. Dobbs, Andrew Sledd, Ivan Lee Holt, R. L. Flowers, H. H. Sherman, C. H. Booth, H. Sydenstricker.

Promotion and Finance.—John S. Candler, J. S. French, L. W. Duval, James Cannon, Jr., G. W. Read, J. H. Reynolds, Sterling Fisher.

Audits.—J. S. Candler, R. G. Mood, Carl Hollis, R. L. Flowers, R. H. Wynn.

Inter-Board Committee on Life Service.—H. H. Sherman, J. M. Culbreth.
Joint Sunday School Committee.—H. N. Snyder, J. H. Renyolds, R. E. Blackwell, W. F. Quillian, H. H. Sherman.

Inter-Board College Visitation Committee.—J. M. Culbreth, H. H. Sherman, Director of the Life Service Bureau.

Committee on Schools and Colleges.—H. N. Snyder, W. F. Quillian, J. H. Reynolds, E. P. Puckett, W. E. Hogan.

EDUCATIONAL ASSOCIATION, METHODIST EPISCOPAL CHURCH, SOUTH

President.—Harvey W. Cox, Emory University, Ga.

Vice President.—J. N. Hillman, Emory and Henry College, Emory, Va.

Secretary-Treasurer.—W. E. Hogan, 810 Broadway, Nashville, Tenn.

ANNUAL CONFERENCE SECRETARIES OF EDUCATION

Alabama.—J. W. Frazer, Montgomery, Ala.

Arizona.—J. C. McPheeters, 741 East Third Street, Tucson, Ariz.

Baltimore.—H. P. Hamill, 3517 New Hampshire Avenue, N. W., Washington, D. C.

Central Texas.—C. R. Wright, Fort Worth, Tex.

Denver.—F. R. Poage, Denver, Colo.

East Oklahoma.—Virgil Alexander, Hugo, Okla.

Florida.—L. M. Spivey, Lakeland, Fla.

Holston.—J. S. French, Bristol, Va.

Illinois.—W. T. Mathis, Murphysboro, Ill.

Kentucky.—

Little Rock.—J. L. Cannon, Arkadelphia, Ark.

Louisiana.—N. E. Joyner, Shreveport, La.

Louisville.—J. H. Nicholson, Louisville, Ky.

Memphis.—E. M. Mathis, Brownsville, Tenn.

Mississippi.—O. S. Lewis, Natchez, Miss.

Missouri.—P. P. Taylor, Columbia, Mo.

New Mexico.—F. K. Suddath, Sierra Blanca, Tex.

North Alabama.—Claud Orear, Birmingham, Ala.

North Arkansas.—R. C. Morehead, Conway, Ark.

North Carolina.—H. M. North, Wilmington, N. C.

North Georgia.—Elam F. Dempsey, Oxford, Ga.

North Mississippi.—J. H. Holder, Grenada, Miss.

North Texas.—John E. Roach, Kaufman, Tex.

Northwest.—J. A. McKee, 836 Newell Street, Walla Walla, Wash.

Northwest Texas.—J. L. Henson, Abilene, Tex.

Pacific.—N. H. Melbert, 2516 Durant Avenue, Berkeley, Calif.

St. Louis.—C. C. Barnhard, Sikeston, Mo.

South Carolina.—G. E. Edwards, Marion, S. C.

South Georgia.—J. A. Thomas, Columbus, Ga.

Southwest Missouri.—J. E. McDonald, Lexington, Mo.

Tennessee.—W. F. Tillett, Vanderbilt Campus, Nashville, Tenn.

Texas.—Glenn Flinn, Jacksonville, Tex.

Upper South Carolina.—J. C. Roper, Columbia, S. C.

Virginia.—S. C. Hatcher, Ashland, Va.

West Oklahoma.—S. C. Rogers, Marietta, Okla.

West Texas.—Sterling Fisher, San Angelo, Tex.

Western North Carolina.—W. L. Sherrill, 405 North Church Street, Charlotte, N. C.

Western Virginia.—A. M. Martin, Huntington, W. Va.
